PROJECT ACCESS

Career Options – One Career Search Online

Directions

The purpose of this student worksheet is to provide guided research through the various sites that may have information about their chosen career, based on results from their various career/interest inventories. As a teacher, think about how to structure this. The level of student computer skills, reading skills, etc. will help you plan for how to this exercise. Have site(s) planned for searching posted in a highly visible place. It is advised that teacher is familiar with the site(s) before students begin their own search.

Name_____Date_____

My career that I will research is _____

1. What kind of educational preparation does this career require?

2. What are the daily duties and responsibilities for this career?

3. What is the occupational outlook for this career? Growth rate?

4. What kind of starting salary can one expect in this career?
